

SCHOOL HANDBOOK

2025 - 26

FSB
FUTURE STEPS
INTERNATIONAL
SCHOOL BANGKOK

WELCOME

I am delighted to welcome you to The First & Future Steps International School for what is an important phase in your child's education.

I hope that you enjoy reading this handbook and that it answers all the questions you may have about our school, including our history and values, and our curriculum. On a more practical level, this handbook includes information relating to our school day, school uniform, term dates and other essential information.

We believe that our relationship with parents and carers is central to the success of the school and that parental involvement is vitally important. I look forward to getting to know you and your children well and receiving feedback from families throughout the year.

Ms. Emma Mulligan

Head of School

VISION

To empower our children to become confident communicators, caring individuals, and active members of our community. We foster empathy, respect, self-belief, and a smile in every child. Together, we create a happy, inclusive and supportive environment that prepares our students for a successful future

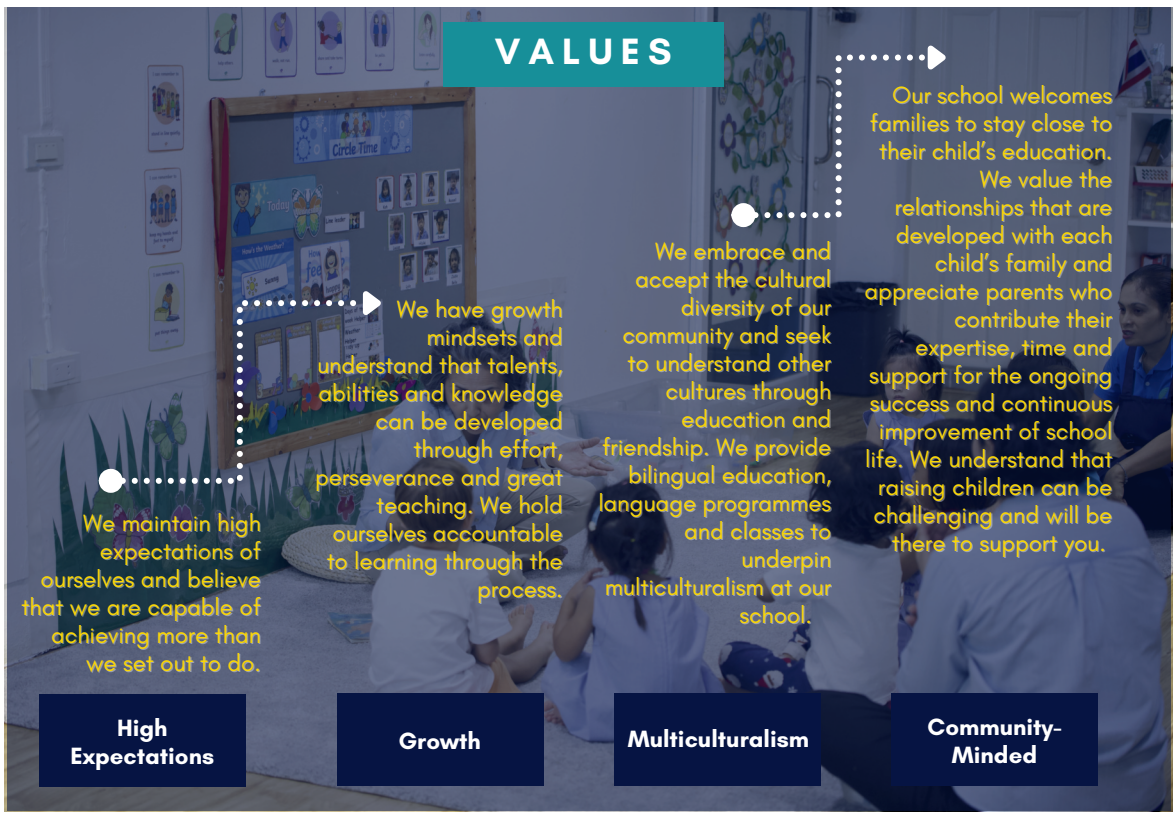

MISSION

Our goal is to be a community which is recognised for the quality of care and all round learning. A place where our students are known as individuals, are encouraged to challenge themselves in all areas of school life and to do their personal best.
We believe that a happy child will flourish. We are committed to providing a safe and stimulating environment for children to learn, where all are valued for their individuality within our diverse and multicultural community.

We strive to foster a partnership with parents to ensure each child's best interests are established together.

Our preschool aims to provide a meaningful, child-centred, playful curriculum that builds confidence, resilience and joy in learning. We offer a warm, happy place where children's needs are acknowledged, accepted and met.

Our primary school is dedicated to nurturing children, equipping them with essential skills, knowledge, and personal attributes to ease their transition into high school and adulthood. We strive to provide children with a more inclusive curriculum, offering a range of options designed to develop their physical, social and emotional wellbeing.

History

The First Steps International Pre-School was established by M.L. Laksasupa Kridakon in 1997 with Her Royal Highness Princess Galyani Vadhana overseeing the opening.

Originally situated on Sukhumvit 43, it was then acquired by LETS ASIA and moved to the current location in 2010.

In 2020, we began our expansion, creating space for primary aged students. A new gymnasium and new classrooms were added to accommodate children up to Year 6. From there we have now expanded further, building a new campus, just next door. The new Future Steps Bangkok (FSB) campus opened in January 2024, ready welcome up to 1,000 students.

CURRICULUM

Early Years Foundation Stage (EYFS) Framework

Year Level	Ages
Rising 2's	16 months +
Nursery	2 - 3 Years
FS2 (K1)	3 - 4 Years
FS3 (K2)	4 - 5 Years

English National Curriculum

Year Level	Ages
Year 1	5 - 6 Years
Year 2	6 - 7 Years
Year 3	7 - 8 Years
Year 4	8 - 9 Years
Year 5	9 - 10 Years
Year 6	10 - 11 Years

Find Yourself at The First Steps

At The First Steps, we follow the British Early Years Foundation Stage Framework (EYFS), currently being taught in all Early Years settings in the UK. The EYFS of education was introduced in 2006 under The Childcare Act 2006. The framework provides a guideline for all preschool and kindergarten curricula, covering the education, care and assessment of all preschool and kindergarten-aged children up to 5 years old.

The EYFS framework is based on four basic principles:

- Every child is a unique human being. They are constantly learning and are self-assured, confident, and capable.
- Developing positive relationships is the way to develop a child's interests and intellect that lead them to becoming educated and independent people.
- An enabling environment allows a child to enjoy their learning experience and feel comfortable exploring the world around them.
- Children have different ways of absorbing knowledge and learn at different rates.

It was developed to help children become strong and self-assured, skilful communicators with creative and imaginative minds and happy, healthy bodies.

"Play is the work of the child" - Maria Montessori

SEVEN AREAS OF LEARNING

The EYFS curriculum encompasses seven prime areas of learning. Children are taught these areas through interactive exploration and play.

Personal, social and emotional development (PSED)

Communication and language (CL)

Physical development (PD)

Literacy, mathematics, understanding the world and expressive arts and design.

Conversation	Discussion	Questioning	Reasoning	Games
Stories	Rhymes	Books	Social Play	Outdoor Activities

These areas are designed to cover the educational needs of the modern child, providing them with the skills, intellect and communication level that will enable them to further understand science, maths, art, literature and technology.

At The First and Future Steps Bangkok, our classes have adopted the EYFS curriculum, delivered by our team of British and European teachers. Your child will be supported through their early years education by a caring, dedicated and experienced team, preparing them for the road ahead.

"The more you read, the more you will know, the more you know, the more places you will go." – Dr Seuss

Find yourself at Future Steps Bangkok

The British Curriculum, also known as the National Curriculum of England, is highly regarded and respected around the world for its emphasis on a broad and balanced education. The curriculum is designed to provide students with a solid foundation in key subjects such as English, mathematics and science, whilst also encouraging creativity and critical thinking.

One of the strengths of the British Curriculum is its focus on developing students' knowledge, skills, and understanding through a variety of subjects, rather than focusing solely on test scores. This approach aims to produce well-rounded individuals who have a good grasp of core subjects but also understand the world and can think critically about different issues.

The British Curriculum also places a strong focus on personal development, with an emphasis on creating an inclusive and respectful community; values that are expected to be transmitted to students, and extend to the students' future personal and professional life.
Additionally, the use of the British Curriculum can provide many benefits for students, such as preparing them for international schools and universities, and giving them the opportunity to learn in a multicultural and multilingual environment.

It is important to note that curriculum is just one aspect of a school and should be evaluated together with other factors such as teachers, facilities, extracurricular activities and management.

P.E. and Swimming

Physical Education (P.E.) and Swimming lessons are taught by our primary specialist P.E. and swimming teachers and LETS ASIA, Bangkok's leading swim school.

Established in 2004, LETS ASIA has grown to be the largest international swim school in Bangkok. With our heated, undercover saltwater swimming pool, children can swim all year round and will benefit from highly valued swimming lessons as part of their curriculum from K1 and up.

Rising 2's and Nursery students will begin developing water confidence in the paddling pool.

For P.E., lessons take place in either the air-conditioned gyms or outdoor spaces depending on the core areas of focus including;

- Dance and Gymnastics
- Movement, Agility and Coordination
- Team Games and Competitive Sports

"Music education can help spark a child's imagination or ignite a lifetime of passion." -Hillary Clinton

Music

Music forms a major part in school life at The First & Future Steps with all children receiving specialist music lessons each week.

Children are encouraged to develop their vocal skills and musical elements including tempo, pitch and dynamics, which are all incorporated into lessons.

A wide variety of percussion instruments are introduced to children which they have the opportunity to explore before moving onto individual instruments such as recorder, keyboards and ukulele.

LANGUAGES

Bilingual Program

The First Steps
International Pre-School

	Nursery / FS2	Nursery / FS2 / FS3	FS3
FRENCH	Thursday and Friday	Optional Wednesday	Monday and Tuesday
GERMAN	Monday and Tuesday	Optional Wednesday	Thursday and Friday

A unique feature of the Early Years curriculum is the opportunity for children to enrol in a bilingual education, studying French or German alongside English.

Families can adapt the program to suit their needs. For example, this could be 2 or 3 days in native French or German and remaining days in their English class.

In Nursery and FS2, French and German classes will be vertically streamed, meaning they will be taught together, whilst FS3 children will be taught separately.

All EYFS students will learn Thai Language and Culture for one lesson per week.

"You can't make your child speak a language. However, you can set the stage so they will want to speak it." -The Bilingual Edge

Language Options

FSB FUTURE STEPS INTERNATIONAL SCHOOL BANGKOK

In Primary, all students are expected to join the Global Languages Program as below. Please note that as per the MOE regulations all native Thai students must study Thai Language.

LANGUAGE	HOURS P/W	LEVEL
Thai	3	Advanced or Beginner
Mandarin	3	Beginner
French / German	6	Native Speakers only
Japanese	3	Native speakers only
Thai Language and Culture	1	Compulsory for all

SCHOOL PROCEDURES

School Timing

In order to best meet the needs of the different ages of children who attend The First & Future Steps, we operate a staggered start and end to the school day.

	Start Time	End Time	ECA Start Time	ECA End Time
Rising 2's / Nursery / FS2	8.30-8.45AM	1.30PM	1.30PM	2.30PM
FS3	8.00-8.15AM	2.30PM	2.30PM	3.30PM
Y1 - Y6	7.45-8.00AM	2.30PM	2.30PM	3.30PM

Arriving at school

By parents / carers

Staff will supervise children arriving early in either the FS garden or the FSB playground from 7.30am onwards. We encourage all parents/carers to join their children and other parents upon arrival. This is an excellent opportunity for you to meet and chat with each other.

EYFS children may arrive via the FSB campus, but must be accompanied by a parent / carer and taken to the FS garden where staff will be there to supervise.

Primary children may arrive by the FS gate and can walk through to the primary campus with a member of staff.

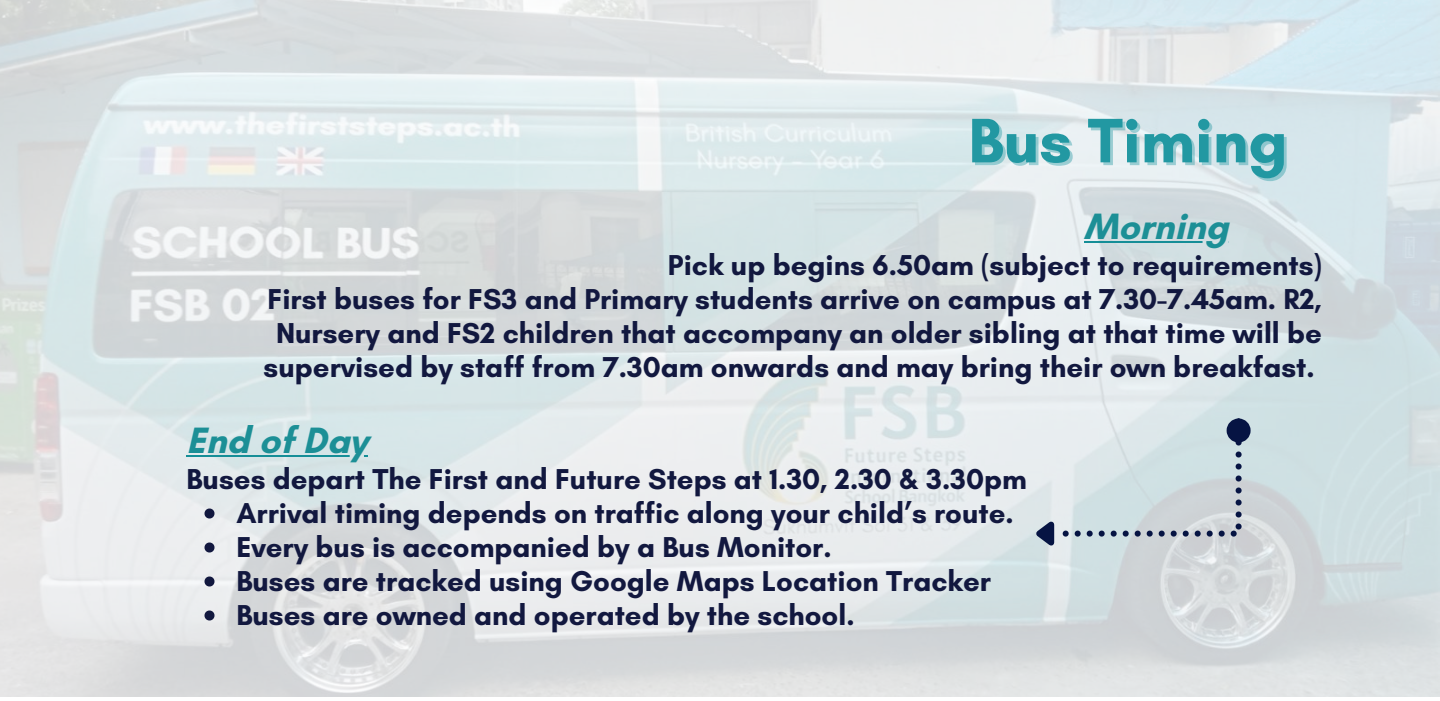

By school bus

First round of school buses for Primary children will arrive on campus at 7.30-7.45am. EYFS children who come on the school bus with their Primary aged sibling will be supervised from 7.30am onwards by staff members. Early EYFS arrivals may bring their own breakfast.

Rain / Pollution

If there is rain or pollution, children will be taken straight to their classrooms. Staff on duty will help escort children to class. Please refer to our AQI policy below:

AQI	AQI Level	Description	Outdoor Activity Guidance
0 - 50	Good	Air quality is considered satisfactory	Good day to be active outside!
51 - 100	Moderate	Air quality is acceptable, however there may be a moderate health concern for a very small number of people who are sensitive to air pollution.	All outdoor activities proceed. Students who are sensitive to air pollution are monitored. Students with Asthma are monitored.
101 - 150	Unhealthy for Sensitive Groups	Sensitive students may experience some health effects. Others are not likely to be affected.	Outdoor activities and PE lessons proceed however less intense activities and more breaks are required. Playtimes are reduced to 20 minutes. Sensitive students are monitored carefully and are excused from outdoor activity if symptoms occur. Windows and doors are closed.
151 - 200	Unhealthy	Everyone may begin to experience some effects; members of sensitive groups may experience more serious health effects.	Outdoors activities are severely limited. Playtimes move indoors. Windows and doors are closed Outdoor ECAs may be affected and moved indoors if possible or rescheduled to another day.
201 +	Very Unhealthy	Health alert: everyone may experience some health effects.	No outdoor activities. Outdoor ECAs moved indoors or rescheduled. Windows and doors are closed. School may be closed under some circumstances.

Bus Timing

Morning

Pick up begins 6.50am (subject to requirements)
First buses for FS3 and Primary students arrive on campus at 7.30-7.45am. R2, Nursery and FS2 children that accompany an older sibling at that time will be supervised by staff from 7.30am onwards and may bring their own breakfast.

End of Day

Buses depart The First and Future Steps at 1.30, 2.30 & 3.30pm

- **Arrival timing depends on traffic along your child's route.**
- **Every bus is accompanied by a Bus Monitor.**
- **Buses are tracked using Google Maps Location Tracker**
- **Buses are owned and operated by the school.**

Going home

Parents/carers are encouraged to arrive promptly at the end of the school day to collect their children either the FS or the FSB campus.

EYFS children must be collected from the FS garden. Parents are welcome to park in the FSB car park and walk through to collect them.

Primary children can be collected from either gate. Please inform the class teacher which gate you will be using so the children can be brought to the correct location at the end of the day.

If collecting by car on The First Steps side, enter through the gate at the LETS ASIA side of the school and drive through. Our staff will be there to ensure your child gets into the car safely.

At peak times the school car park and pick up/drop off area can become very congested. Parents, carers and drivers are asked to follow the instructions of school staff at all times to ensure these areas remain a safe environment for our school community. Whilst stationary, engines must be switched off.

School Transport

We also provide a complimentary Tuk Tuk service to and from RSU Building on the corner of Sukhumvit 31 and Sukhumvit Road.

If you are interested in finding out more about school transport, please contact the Transport Team **transport@thefirststeps.ac.th**

Absences

If your child will be absent due to illness or other unplanned events, please contact your child's teacher on the day of absence, as soon as you can. If your child is absent due to illness, please send a note or medical certificate once they return to school.
Should you wish to withdraw your child from school for a planned absence, please let the class teacher know.

Leaving Early

If your child is required to leave school early for essential appointments, we would ask that you inform the class teacher and the School Office in advance. Please report to the School Office when you come to collect your child.

Security Pass

Security, safeguarding and the protection of your child is taken very seriously at The First & Future Steps. We wish to retain our friendly and welcoming atmosphere, but also ensure that children are safe and secure when in school.
All adults (parents, carers and staff) are required to wear a security pass whilst on school grounds. Parents should inform the School Office about who will drop off or collect their child and these adults will be issued with a security pass on a white lanyard, which can be used to enter through the school gates. We will provide two passes per family free of charge. Additional passes can be purchased. Anyone under the age of 18 years will not be permitted to collect children.
Family or friends who might be visiting Thailand and wish to come to school are most welcome. However, they must be accompanied by an adult who is listed on our database and exchange their ID for a visitors badge at the security gate.
If someone different is collecting your child please let the School Office know in advance, otherwise we will not allow children to leave school with anyone other than the named parents or carers.

After School Activities and trips

At FSB, learning extends beyond the classrooms. School events, extra-curricular activities, visiting speakers, special topics, visits and trips all provide a wide range of experiences that support and enhance children's learning.

All children have the opportunity to attend educational trips outside of school, which are carefully chosen to consolidate and reinforce the learning taking place in the classroom.

Throughout the year we celebrate a variety of special days which includes International Week, Loy Krathong, Book Week, Christmas, Songkran and Chinese New Year, as well as Sports Week which is always a highlight of the school calendar. Such days form an important part of our wider curriculum and ensure that children benefit from a wide range of opportunities and experiences.

An extended day is available to all children from Nursery upwards through a wide range of after school activities (ASAs) which are driven by the interest of our children and staff. Our comprehensive ASA program includes music, sport, languages, technology, cooking and the creative arts.
ASAs change each term and are allocated on a first come first served basis. We use an app called Clipboard for sign ups. Please note that day trips and ASAs incur an additional charge.
Please note:
• If an activity session run by school staff cannot take place due to weather conditions or unforeseen circumstances, there will be no make-up session.
• If an activity session led by external providers cannot take place, every effort will be made to schedule a make-up class. If this is not possible, you will be refunded for that session.

FOOD

We believe that when a child is given healthy, well balanced meals and snacks, they are given the best possible fuel to support their development and thus follow a healthy eating policy

At The First and Future Steps, we use Epicure, an outside provider who cook the food here on the school premises. Menus are shared weekly so that you can talk to your child about their choices beforehand. We work with their team to create the menus for snack and lunch and believe the food provided to children is of a high nutritional standard.

We are able to accommodate dietary requirements and allergies where required.

Special Occasions:

Birthdays and special events are times when food contributes to a sense of celebration and sharing. On these occasions, foods other than those usually promoted may be offered as an "occasional treat", not "everyday food".

On your child's birthday, parents are welcome to provide a (modest, nut-free) cake for their class to share.

Planning on packing you child's lunch?

- ✓ Healthy foods
- ✓ Lunchbox with name
- ✓ Add ice pack to keep food fresh
- ✗ No glass containers or bottles
- ✗ No nuts of any kind

Eating at school:

- Set meal times
- Sit together to eat (supervised)
- Feed yourself
- Clear up after yourself

Don't Forget!

Bring a water bottle to keep at school. Water will be replenished throughout the day from school water coolers.

What to Bring

Uniform

- All students should have a school uniform, P.E. T-shirt and book bag which can be purchased from the School Office.
- EYFS students can wear their own clothes on 'Freestyle Fridays'.
- Primary students must wear their House T-shirt on Fridays.
- Footwear should be comfortable and offer appropriate support. High heels and flip-flops are not permitted. Trainers should be worn for P.E.
- Jewelry should be removed for PE and swimming lessons. If students are unable to remove their jewellery independently it is advised that they do not wear jewellery to school on PE or swimming days. For health and safety reasons, long hair must be tied back for PE lessons.

Spare Clothes

- EYFS students should bring a spare set of clothes (including underwear / nappies) at the start of the school year to remain at school. A second spare set should be packed in your child's school bag each day.
- Primary students should also bring a spare set of clothes in their school bag each day.

Swimming Kit

- Rising 2's to FS2 students are required to bring a swimming costume and towel at the start of the school year to remain at school. These will be cleaned by school staff each week.
- FS3 and Primary students should bring their own swimming kit to school on the days they have swimming and take it home to be cleaned.

Bags

Students should bring a backpack to school that is small enough to fit in their cubby, but big enough to hold an A4 folder.

Your child's teacher will inform you which days to bring their library bag at the start of term.

Sun Hats

All children are required to wear a hat in the garden per our 'No Hat, No Play' policy. If your child forgets their hat, they will be restricted to covered play areas.

Library bags and school hats are available to purchase at the School Office.

Item Labels

All clothing and belongings should be clearly labelled with your child's name. This includes uniform and footwear, swimming kits, lunchboxes, water bottles, bags, hats and other items.

The School will endeavour to return all labelled items to your child should they lose them at school, however, the School does not take responsibility for lost items.

We strongly discourage children from bringing valuable items to school.

Well child policy

It can be tricky deciding whether or not to keep your child off school when they are unwell. If you do keep your child at home, it is important to let us know on the first day that they are absent. Let the class teacher know that your child won't be in and why.
If you suspect that your child may have COVID-19, please take an ATK test and keep them at home if it is positive.

The following guidelines may help you decide whether or not to send your child to school.

High temperature

If your child has a high temperature, keep them off school until it goes away. If your child needs medicine to reduce their temperature, then they are not well enough to attend school.

Coughs and colds

It is fine to send your child to school with a minor cough or common cold but if they have a fever, keep them off school until the fever goes. If they are finding it difficult to breathe or to eat due to blocked / runny nose, keep them at home. If they are too ill to swim, keep them at home. Encourage your child to throw away any used tissues and to wash their hands regularly. Teach them to cough into the crook of their arm to avoid spreading germs. Younger children need to be taught how to blow their own nose.

Chickenpox

If your child has chickenpox, keep them off school until all the spots have crusted over.
This is usually about 5 days after the spots first appeared. As this can be especially contagious it is vital to inform the class teacher.

Conjunctivitis

If your child has conjunctivitis keep them at home until the discharge from the eyes has cleared. Do get advice from your doctor. Encourage your child not to rub their eyes and to wash their hands regularly. As this can be especially contagious it is vital to inform the class teacher.

Ear infection

If your child has an ear infection and a high temperature or severe earache, keep them off school until they're feeling better or their high temperature goes away.

Hand, foot and mouth disease

If your child has hand, foot and mouth disease but seems well enough to go to school, keep them at home until their fever has gone and the blisters have crusted over. As this can be especially contagious it is vital to inform the class teacher.

Head lice

Please keep your child at home until the head lice can be treated. As this can be especially contagious it is vital to inform the class teacher.

Impetigo

If your child has impetigo, they'll need treatment from a doctor, often with antibiotics.
Keep them off school until all the sores have crusted over and healed, or for 48 hours after they start antibiotic treatment.
As this can be especially contagious it is vital to inform the class teacher.

Ringworm

If your child has ringworm, see your doctor and stay at home until treatment has begun.
As this can be especially contagious it is vital to inform the class teacher.

Scarlet fever

If your child has scarlet fever, they'll need treatment with antibiotics from a doctor. Children should remain at home until at least 24 hours after starting antibiotics and are fever free.
As this can be especially contagious it is vital to inform the class teacher.

Sore throat

You can still send your child to school if they have a sore throat. But if they also have a high temperature, they should stay at home until it goes away.
A sore throat and a high temperature can be symptoms of tonsillitis.

Vomiting and diarrhoea

Children with diarrhoea or vomiting should stay away from school for 24 hours after their symptoms have gone. If a child vomits or has diarrhoea in school, we will observe them and check their temperature. Should it happen more than once we will call you to collect them.

Medication

If your child is given antibiotics they must wait 24 after the first dose before returning. School may administer medication only if a permission form is completed by the parent/guardian.

Swimming

Swimming is a vital part of our school curriculum. The pool is heated and care is taken to ensure children are comfortable at all times. If your child is too unwell to join in with swimming. then it is likely that they are too unwell to come to school.

*"**Thank you** for your support with this. We know that a child needs to be healthy and well in order for them to learn. By adhering to these guidelines we can ensure that The First & Future Steps is a healthy, and happy, school, where every child can learn."*

Digital Media

Upon enrolling at The First & Future Steps, all parents/carers will be asked to complete a Digital Media Consent Form for their child. This relates to photo and video taken of your child by employees of The First & Future Steps when your child is under the supervision of the school.

Medical

Parents/carers are required to complete a Medical Form for their child. It is important this form is completed accurately and updated when required.

Should prescription medication be required to be administered to a child during the school day, parents/carers should complete an additional form providing consent for the named medication to be administered. Any medication brought to school should be handed directly to the class teacher by the parent/carer and not kept in a child's bag.

FINANCE

Invoicing and Tuition Fees

Invoices are made for each student separately.

Tuition fees, including school transport and meals, are payable before the start of each term. This ensures the School will be able to function effectively in support of your child's learning.

Additional fees incurred for ECAs and school trips will be invoiced as required throughout the year.

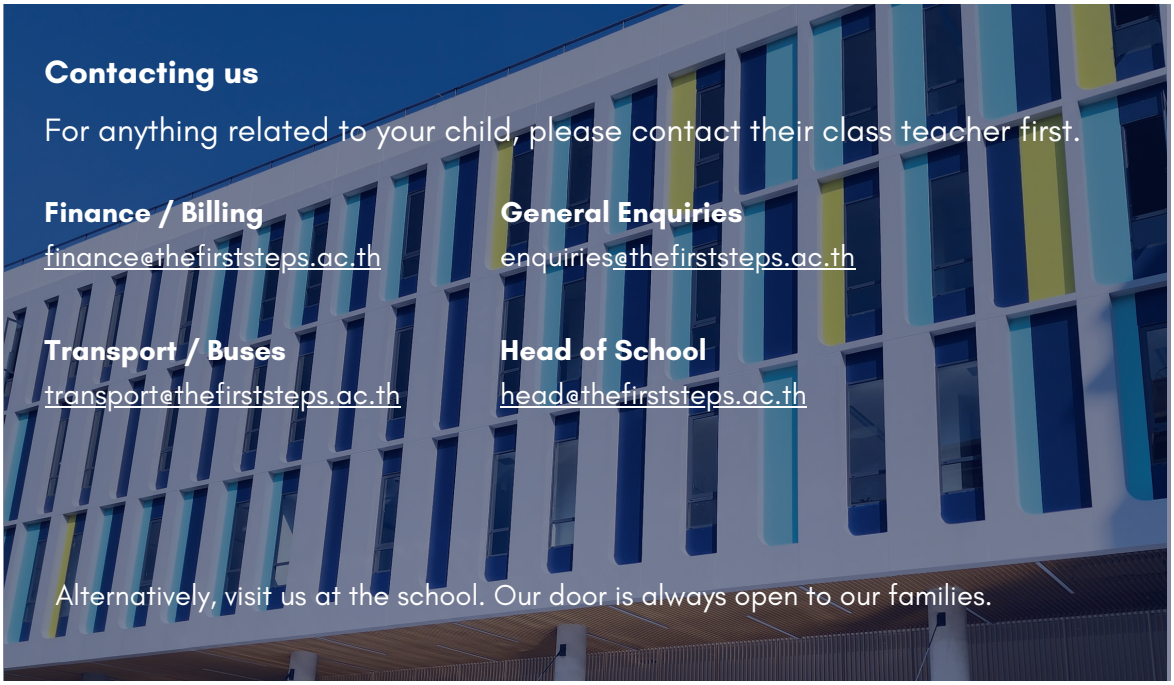

For further details about payment please contact ***finance@thefirststeps.ac.th***

COMMUNICATION

Contacting you

The First and Future Steps uses iSAMS, a school management system. Through iSAMS, our main form of communication is email. We require all parents / carers' current email addresses to ensure we can stay in touch about your child and school events.

Similarly, should your contact details change, please inform the School Office. It is vital that we have up to date phone numbers in case of emergencies.

School Reports

Your child's progress will be shared regularly throughout the year; formally through written reports and Student Progress Meetings (SPMs) and informally through conversations with teaching staff.

Formal written reports are sent to parents at the end of Terms 1 and 3. SPMs are held at the end of Terms 1, 2 and 3, with an additional meeting offered at the start of the school year or upon joining to discuss how your child has settled into the school.

We believe that the parent and school relationship is an important one and that direct parent involvement is crucial to the success of your child's development and education.

Seesaw

We believe that children learn through experiences and that it is our job to provide them with those learning opportunities every day they come to school.

At The First & Future Steps we record those special moments of your child in our online Seesaw Learning Journal which is used for communication with parents/carers and to share learning.

This online platform allows us to capture and share your child's progress with you, as well as monitor their development and learning. Videos, photos and samples of your child's work will be regularly uploaded for you to view, providing parents and carers with an immediate and personalised window into their child's learning in school. Children are also able to make posts, which are reviewed by the class teacher before publishing. This allows the children to reflect on their own achievements and learning. Teachers and parents can both give feedback on individual pieces of work; a fantastic way to strengthen home-school links.

Seesaw will follow children for their entire career at The First & Future Steps and so over time, an organised, digital portfolio of each child's learning is created. Journals are carried forward to the child's next class, and ultimately throughout Primary School, ensuring a smooth transition for each child. Seesaw is accessible via almost any device - Seesaw exists as an app on tablets and phones, as well as on a desktop computer. It is not shared with anyone else as each child has their own individual unique journal.

In order for your child to use Seesaw, we have to obtain your consent and that in signing a consent form you are allowing the app to use your child's name in order to be able to associate work like photographic evidence of work, videos or voice recordings with their account. Seesaw only uses this information to provide the service and doesn't advertise in Seesaw, create profiles of students, or share or sell your child's personal information or journal content. You can read more about their strong privacy promises online at **https://web.seesaw.me/privacy** If you have any further questions regarding Seesaw then further information can be found on the website or please contact the school.

Weekly Updates

At the start of each half term, class teachers will share an overview of the learning to be taught for the half term. Each week, they will post a notice on Seesaw with notices and reminders for the upcoming week. There will be a whole school newsletter sent each week showcasing the work that has happened across the school and giving information and updates relating to school life.

Parent Workshops

We hold a variety of parent workshops throughout the year on a range of topics including Phonics, and Emergent Reading and Writing.

Social Media

Please follow us on Facebook and Instagram (@firstandfuturestepsbkk) to keep up to date with school events and activities. Our social media sites provide an opportunity for parents to gain an insight into daily life at The First & Future Steps and give an indication of the wealth of activities and successes achieved. Regular news updates and photographs provide a colourful and diverse view of the School.

Noticeboards

The school Notice Boards are situated in the garden near the main gate and in the courtyard in FSB. Important notices will be emailed to parents and placed on the board.

School Events

We hold many school events throughout the year to celebrate our children's successes, their hard work and our cultural diversity. These include International Day, Songkran, Christmas, Health Week and Loy Krathong. Parents are often invited into school to share these events and applaud our children's achievements. Please regularly check your emails information about these and any requirements such as costumes or food.

THE FIRST STEPS / FSB INTERNATIONAL SCHOOL 2025/2026 ACADEMIC CALENDAR
